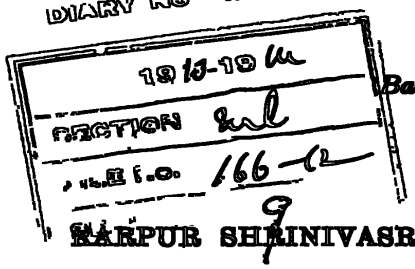
MYSORE P W DEPARTMENT,

CENTRAL OFFICE

Bangalore, 16th July 1913



From

S. KARPUR SHRINIVASRAV, Esq, B Sc, L.C.E,

Offg Chief Engineer of Mysore,

Bangalore.

To

The Secretary to Government,
General and Revenue Departments,
Bangalore

Sir, I have the honour to acknowledge the receipt of your letter No 10,390/Rel 166-12-8 dated the 26th June 1913, inviting attention to Dasara Subject No 365 of 1912, regarding the remission of the water meter rent and enquiring how the representation made by the Presidents of the Bangalore and Mysore City Municipal Councils was disposed of in the Public Works Department.

2 In reply, I have to inform you that the question is under the consideration of Government - Vide your unofficial No 176 dated the 16th May 1913. The papers connected with the case will be transmitted to you on receipt of certain particulars called for from the Assistant Commanding Royal Engineer.

I have the honour to be,
Sir
Your most obedient Servant,

S. Srinivasrav
for Chief Engineer of Mysore

1913.

Public Works.

Read:-

Government Order No.766-71/5269-74 dated the 29th June 1912, sanctioning revised rules for the regulation of the water supply in the Cities of Bangalore and Mysore.

2. Subject No.200 (2) of the Representative Assembly Proceedings of 1913, for the remission of water meter rent.

3. Note dated the 6th January 1915, from the Secretary to Government, Public Works Department, on the resolution of the Committee which met to discuss the questio as desired by Government in their reply to the subjects.

Order No 459-64/5886-91 Dated Bangalore, 12th June 1915.

The Committee consider that the levy of water meter rent at 4 annas per mensem on all house connections work as a hardship on the poor people that generally consume even less than the full minimum quantity of water allowed by the rules. They accordingly resolved that in the case of all houses consuming not more than the full minimum quantity of water, viz: 12,000 gallons per quarter, the meter rent may be remitted. The Chief Engineer also recommends the adoption of this proposal, but states that the consumption of water should be

calculated every month as is being done now, and remission of meter rent be given, if the consumption does not exceed 4,000 gallons per month, and not 12,000 gallons per quarter, and suggests that Rule 10 of the revised water supply rules be amended accordingly.

3. Government are pleased to approve of the recommendation of the Committee as modified by the Chief Engineer and direct that Rule 10 (a) of the revised water supply rules be amended as follows:-

"For all connections where a water meter is fixed, a charge of annas 4 per month shall be levied as rent for the meter in addition to whatsoever charge may be due for the water consumed, provided that for the period when the meter is out of order, no rent shall be charged and provided also that a remission of full meter rent for any month shall be granted if the total consumption in that month does not exceed the minimum free allowance of 4,000 gallons for that month."

4. This order will take effect from 1st July 1915.
